

# Appendix D

## Codes for Formulations

(Catalogue of pesticide formulation types and international coding system,  
Technical Monograph n<sup>o</sup>2, 6<sup>th</sup> Edition, CropLife International)

AE	Aerosol dispenser	KK	Combi-pack solid/liquid*
AL	Other liquids to applied undiluted	KL	Combi-pack liquid/liquid*
AP	All other products to be applied undiluted	KN	Cold fogging concentrate
BR	Briquette	KP	Combi-pack solid/solid*
CB	Bait concentrate	LN	Long-lasting insecticidal net
CP	Contact powder	LS	Solution for seed treatment
CS	Capsule suspension	MC	Mosquito coil
DC	Dispersible concentrate	ME	Microemulsion
DP	Dustable powder	OD	Oil dispersion
DS	Powder for dry seed treatment	OF	Oil miscible flowable concentrate (oil miscible suspension)
DT	Tablets for direct application	OL	Oil miscible liquid
EC	Emulsifiable concentrate	OP	Oil dispersible powder
EG	Emulsifiable granule	PA	Paste
EO	Emulsion, water in oil	PR	Plant Rodlet
EP	Emulsifiable powder	PS	Seed coated with a pesticide
ES	Emulsion for seed treatment	RB	Bait (ready fore use)
EW	Emulsion, oil in water	SC	Suspension concentrate (= flowable concentrate)
FS	Flowable concentrate for seed treatment	SD	Suspension concentrate for direct application
FU	Smoke generator	SE	Suspo-emulsion
GA	Gas	SG	Water soluble granule
GE	Gas generating product	SL	Soluble concentrate
GL	Emulsifiable gel	SO	Spreading oil
GR	Granule	SP	Water soluble powder
GS	Grease	ST	Water soluble tablets
GW	Water soluble gel	SU	Ultra- low volume (ULV) suspension
HN	Hot fogging concentrate	TB	Tablet
		TC	Technical material

\* Special two-letter code for twin-packs

## APPENDIX D

TK	Technical concentrate		
UL	Ultra-low volume (ULV) liquid	XX	Others
VP	Vapour releasing product	ZC	A mixed formulation of CS and SC
WG	Water dispersible granule	ZE	A mixed formulation of CS and SE
WP	Wettable powder		
WS	Water dispersible powder for slurry treatment	ZW	A mixed formulation of CS and EW
WT	Water dispersible tablets		

For Record keeping purposes, the suffix “SB” should be added to the formulation code, if the material is packaged in a sealed water soluble bag (e.g. WP-SB).
