

CIPAC STATUS REPORT

28/06/2005

0094 Methoprotryne

Allocated to CH

CIPAC methods published in :

CIPAC 1A, p. 1302 (titr., GLC)
1B, p. 1864 (GLC)

CIPAC 14th meeting, June 1970 in Gembloux

Decision The method for prometryne (1495) was adopted as provisional CIPAC method on the basis of its reproducibility shown by the results of collaborative work but the Committee felt the necessity to add a method for qualitative or preferably quantitative identification and requested Dr. Bosshardt to initiate work on the TLC method proposed by Stambach and al. In the meantime, the Committee insisted that the work on a GLC method under the leadership of AOAC should be continued.

CIPAC 15th meeting, October 1971 in Washington

Decision The Committee recommended that a collaborative work on a GLC method, similar to the method adopted for atrazine, to be carried out. CIPAC Information Sheet No 30 (16th March 1972) has been sent.

CIPAC 16th meeting, June 1972 in Stockholm

Decision The titration methods presented in the report 1634 are to be published in CIPAC 1A as provisional methods with a footnote pointing out that a GLC method, which is more specific, is in progress and will be published as soon as the collaborative work is completed.

CIPAC 17th meeting, June 1973 in Wageningen

Decision The revised provisional methods (1928/1929) to be published in CIPAC 1A. GLC method in 1A (to be sent by Dr. Caswell) as full method if the collaborative work is completed at the time of publishing 1A, or as provisional if the work is not completed.

CIPAC 18th meeting, June 1974 in London

Decision Work completed. Methods 1928M and 1929M to be published as full methods in 1A.

CIPAC 19th meeting, June 1975 in Oeiras

Dr. Adam said a GLC method was necessary. A collaborative study could include terbuthylazine as well.

Decision Dr. Bosshardt will try to supply a GLC method, which can be accepted as draft method.

CIPAC 20th meeting, June 1976 in Wädenswil

Decision GLC method CIPAC/2427m to be supplied by Dr. Bosshardt was accepted as draft CIPAC method.

CIPAC STATUS REPORT

28/06/2005

CIPAC 21st meeting, June 1977 in Braunschweig

Decision GLC method CIPAC/2427/M was accepted as draft CIPAC method.
