MT 39 Stability of liquid formulations at °C

Allocated to DAPF

CIPAC methods published in:

CIPAC F, p. 128

CIPAC J, p. 126

CIPAC 42nd meeting, July 1998 in York

A proposal for a new method MT 39.3 was presented by Mr. Menschel.

Decision The method for the determination of the stability of liquid formulations at 0°C (CIPAC/4043), which is a combination of the methods MT 39.1 and 39.2, was accepted as full CIPAC method (MT 39.3).
