

Important information regarding the 2024 CIPAC meeting

Dear colleagues,

The block code (544333) necessary for the preferred hotel booking at the Wageningen International Congress Centre (WICC) is extended up and until April 14. However after April 1 the block code is only valid for 35 bookings so first come, first served. Please make use of this offer as soon as possible as alternative accommodation might be difficult to find in Wageningen. Remember, after April 14 the availability of a single room cannot be guaranteed. The rate of €105/room/night, incl. breakfast and VAT, excl. tourist tax will not change after April 14.

Furthermore, we received messages about the non-availability of single rooms. If you intend to book or have booked before April 1 and you have used the block code 544333 this is not correct as single rooms should be available. Please contact in that case the WICC by email: sales@wicc.nl or info@wicc.nl while mentioning CIPAC 2024. The staff of WICC will then assist you with your booking.

Kind regards, Theo de Rijk, Joost Memelink
